

Hôpital général juif
Jewish General Hospital

August 19, 2013

To Whom it may Concern,

The Department of Nursing at the Jewish General Hospital has used the services of Lisa Lipowski at Curly Dog Communications for more than 15 years. Ms. Lipowski and her team have been instrumental in helping us to coordinate and launch our annual nursing conference. Our conference draws up to 300 participants from across Canada each year. We invite national and international keynote speakers who are of interest to nursing and the larger health care community.

Curly Dog Communications provides excellent logistic, graphic design, and coordination services. They are particularly helpful in engaging industry presence and support. The team is dynamic, flexible, and creative, always pleasant to work with. Ms. Lipowski has proven to be an excellent resource when issues arise and is calm in the face of crises.

Sincerely,

Valerie Frunchak, N, MSc (A)
Associate Nursing Director
Mental Health
Training & Staff Development
Assistant Professor, Ingram School of Nursing
